WIRELESS TELEGRAPH OPENS SEA ROUTE

VESSELS IN ARCTIC ADVISED AS TO CHANNELS FREEST FROM ICE

(By Associated Press.) LONDON, Nov. 1.—Wireless telegraphy has opened a polar sea route from central Russia to Great Britain. Wireless stations established by the Russian government in the arctic keep the vessels advised as to the channels freest from ice. Acting on their information, two large vessels chartered by a Siberian trading company have just arrived at Grimsby with cargoes from the Yenesei and Obi districts of central Siberia, valued at \$1,750,000.

The Obi and Yenesei are huge rivers with a great depth of water, taking steamers of any size. But it was not until lately that their navigation was put into practice.

Owing to the use of the trans-Siberian railway by the Russian government for war supplies, there are 3,000,000 tons of wheat held up in Siberia, besides enormous quantities of other produce. If this can be got out, it will improve Russian exchange, which is now a serious problem among the allies.

Next year the company proposes to take about thirty steamers over the new White Sea route, laden with Siberian products. Even if the war ends before this time, it is pointed out that the Siberian railway will be more or less tied up with back business and the returning of troops.

OPERA IN PARIS WILL BE RENEWED

(By Associated Press.) PARIS, Nov. 1.—The long delayed opening of the opera is now promised for this month. Monsieur Rouche, the new director, says he will give only two matinees a week, on Sunday and Thursday, with French operas to begin with, followed by works of the allies. Monsieur Albert Carre of the Comedie Francaise, adopting the same idea of favoring ally authors, is preparing a production of "Gloconda," by Gabriel d'Annunzio, to be followed by "Le Cid," by the Belgian poet Verhaeren. New pieces are not lacking. Monsieur Carre says, but the national theater will rely mostly upon revivals of old favorites until the staff, depleted by the mobilization, has been brought to its full strength. The Opera Comique, laboring under great difficulties, has succeeded in supporting all of the company not mobilized. Out of seven leaders there remained but one after the mobilization.

RELEASED CONVICTS ENLIST IN THE ARMY

(By Associated Press.) BERLIN, Nov. 1.—The war's effects are distinctly noticeable in Germany's law-breakers, according to the Association for the Betterment of Criminals. Released convicts, so far as they have come under the observation of this organization, have, in a majority of cases, enlisted in the army if physically able to do so, and have "made good" in civil occupations when their health made it possible for them to serve.

So many of the able-bodied released within the past three months have gone into the army that the association has had more jobs of a civilian nature than it could dispose of, and wages offered have risen accordingly. All but 19 of the 538 men who have applied for work have been given something to do. Paroled prisoners are said to have shown an unusually high percentage of apparent reform since the start of the war.

EUROPEAN LANGUAGES LEARNED IN LONDON

(By Associated Press.) LONDON, Nov. 1.—Classes in Russian, French and Spanish are prospering in London as never before. It is recognized that Germany's great increases in trade were due largely to the pains German clerks and business men took to learn foreign languages. Special courses in the Slav tongue, including Polish and the Balkan dialects, are now established at King's College, University of London. T. G. Masaryk, professor of philosophy in the Czech University of Prague and formerly a prominent politician in the Austrian parliament, is the head of the school. Instruction in the languages will be accompanied by lectures in the Slavonic history and literature. Spanish is rather the latest to be taken up, just as Russian was the first after the outbreak of the war. The Welsh people, on account of being bilingual, are the cleverest students in language, and the Scotch next, according to the teachers.

MAKES FINAL SHIPMENT

The Nevada fish commission has made final shipment of fry from the various hatcheries. The commission has had a very successful year, according to Commissioner Mills. It has shipped during the season many thousands of fry to various streams and lakes in the state, and has at present 300 albinos in the state, and has at present 300 albinos in the state, and has at present 300 albinos in the state.

HEAVY CONSIGNMENT OF COTTON ARRIVES

(By Associated Press.) LUSANNE, Switzerland, Nov. 1.—According to news received here from Mutterz, a heavy consignment of cotton that arrived there recently is being sent across the frontier into Germany notwithstanding the rigorous measures against contraband. The consignment is said to have received from Germany about the same time a thousand large tin boxes. It was noticed that the cotton was gradually disappearing; the tin boxes also. The cotton, compressed in the boxes, found its way into the Rhine and was fished out by the Baden ferryman who operate the line between Switzerland and Germany a little farther down stream.
